Fairness in a Growing Economy - PwC

PwC will join the LEP Board to present their latest findings on the challenges of inclusive growth; how we ensure innovation in the public and private sector does not widen the gap between the 'haves' and 'have-nots'; and how we deal with the tension between the public and private sector when it comes to discussing the fairness narrative.

In preparation for the presentation and subsequent debate, Members are asked to note the content of the PwC Report 'Making the UK fairer: How we work' which can be found at appendix A. Further information can be found on the PwC website here <https://www.pwc.co.uk/industries/government-public-sector/insights/the-future-of-government/how-we-work.html>
